

Test- and management software

- safety and function tester control
- scheduling of test activities
- user specific printing with form generator
- interface for controlling out of MS-Windows application
- management of devices, inspection management, customer management

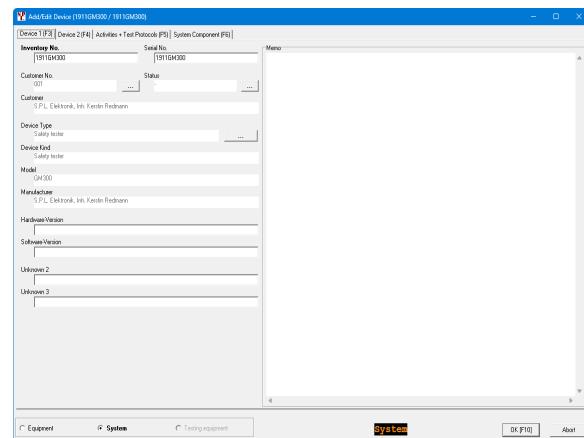

Technical Data

ACTIMED is a test- and management software for medical and industrial usage. It has been designed for in-house usage and mobile usage at your customers (e.g. hospitals).

ACTIMED provides the creation, execution and management of test procedures with test devices from S.P.L. Elektronik. You can control devices from other manufactures as long as they are compatible with the communication interface.

ACTIMED is based on GMEP and ACTIMED 1.0.

Test Protocol (1911GM300)						
No.	Function	Work Step	[S]	[M]	Criterion	Results
1	SPL06	IEC 60801 Earth leakage current NC	240..255		252.3 μ A	Pass
2	SPL08	IEC 60801 Touch current NC	240..255		252.3 μ A	Pass
3	SPL09	IEC 60801 Touch current SFC PE open	240..255		251.9 μ A	Pass
4	SPL11A	IEC 60801 Patient leakage current NC, ac	240..255		252.6 μ A	Pass
5	SPL12A	IEC 60801 Patient leakage current SFC PE open, ac	240..255			0
6	SPL09P	IEC 60801 Earth leakage current NC, P	240..255			0
7	SPL09P	IEC 60801 Touch current NC, P	240..255			0
8	SPL09P	IEC 60801 Touch current SFC PE open, P	240..255			0
9	SPL11AP	IEC 60801 Patient leakage current NC, ac, P	240..255			0
10	SPL12AP	IEC 60801 Patient leakage current SFC PE open, ac, P	240..255			0
11	SPL210	IEC 62353 Equipment leakage current, at. Cl + Cl, alAP	1550..1410			0
12	SPL230	IEC 62353 Equipment leakage current diff. Cl + Cl, alAP	660..720			0
13	SPL240	IEC 62353 Leakage current of AP, alternative, alAP	400..450			0

There are lots of customer and device management features and a form generator to create specific prints. You can access to professional databases (e.g. InterBase) with the integrated ODBC-Database link.
